COMPLIANCE CORNER

One way to add a valuable service to your practice is to have a Notary Public on your staff.

We encourage you, or an assistant on your staff to apply to become a Notary Public. It is inexpensive and easy to accomplish.

Notary certifications are issued by individual states, so you can search the internet for information on how to become a Notary in your state. Your status as a Notary does not need to be reported to Harbour but can be a nice addition to the services you offer.

NEW PHONE?

ATLAS

Before you wipe your old phone, make sure your Multi-Factor Authentication (MFA) is ready to make the move too!

Please reach out to our Atlas team first. We can assist migrating MFA settings to your new device.

Skipping this could delay your access back into Atlas. Please reach out to our team at atlas@harbourinv.com for assistance.
